Subject: EAC Auction

Bob: I received my catalogue today, which is as usual a fine piece of work. However I must reluctantly point out what I believe is a complete misattribution. Lot 127 is a regular 1856 half cent, not a Judd 177 copper-nickel pattern, IMHO. For one thing, it is entirely too well struck up. I spent years looking for a fully struck up specimen without ever seeing one or hearing of one. (Thank you for the excellent photographs !)

Also the weight is wrong. If you will look at your notes on my four specimens you will see that they all weigh close to 70 grains, not the 84 grains of lot 174. (Thank you for giving the weight !) Both Breen and Cohen 2nd edition give the 70-72 grain weight as standard for the patterns.

Do you have access to a facility which could test the composition ? If I am wrong, which Marilyn will confirm happens with some regularity, I would be very interested in acquiring a copper-nickel pattern so well struck and of such anomalous weight.

I am willing to bring this to your attention because I felt confident you would want to know.

Marilyn and I are looking forward to seeing you and Laurie at EAC.

Regards, Tett

Dear Teti:

I hope you had a great time at the convention. I do get Sklow auction catalogs but they come to St. Louis and I do not have them sent here to Martha's Vineyard. If your letters are being auctioned you can now know your correspondence and Email have the privacy of a gold fish. Maybe we should buy them for Rose. I come home on September 5 so we can exchange information then. Eric

Thanks Bunny for the mention of the PD article mention. The Philadelphia Inquirer commented first because my Philadelphia co-author was guiding the emphasis. The 20 page article itself will not even be published by the University of Pennsylvania Press until September. Now I have to rewrite the entire article strictly from a numismatic point of view for "The Numismatist" as it originally had to be focused on Audubon which was proper. Have fun in Boston.
Eric.

Hi, Tett--

I just wanted to let you know that the original Col. Green inventory (442 pages) is coming up for sale in the Kolbe-Fanning auction in New York on January 7, 2012.

The pre-auction estimate for the lot is \$30,000. I expect it may take twice that to win it.

I was wondering if you could check with Eric on this item to see if he is interested in purchasing this for his museum. I am very interested in this lot and will bid on it under the right circumstances.

I look forward to being able to visit and look at Eric's records we talked about previously.

Thanks,

Mike

To: [REDACTED] <[REDACTED]>

Mon, Nov 28, 2011 at 2:23 PM

Dear Mike and Tett:

I have no interest in purchasing the Col. Green Inventory by Boyd. I was recently asked by Fanning if it was unique and I responded that I did not know of any other but that Chase National Bank as administrator of the Estate ought to have another copy buried in its or its successors' files unless perhaps this is that copy. When I purchased several portions of the Col. Green numismatic holdings there was no inventory shown to me but they had and used a valuation record for each portion sold to me. I will try to answer any other questions you may ask about it. This all occurred beginning in 1941. I am sure you know that Stacks purchased the half eagles, the eagles and the double eagles when I had no further source of money or time.. Good luck. Eric

Fwd: Roger Cohen Material

1 message

To: [REDACTED]
Cc: [REDACTED]

Thu, Mar 1, 2012 at 1:51 PM

Eric: Bob Kebler is a half cent collector, researcher, and a pediatrician from Kirkwood. He is working on an exhibit for EAC dealing with Roger Cohen. As a child Bob lived on the same street as Roger in Baltimore and played with Roger's children, I believe.

As part of his research he has been going through and organizing the large amount of Roger's papers which I bought from Roger's widow, Debby, after Roger's death, and which I gave to EPNNES. It is a great improvement over what has been many boxes of disorganized material. Bunny

From: [REDACTED]
To: [REDACTED]
Sent: 3/1/2012 10:33:34 A.M. Central Standard Time
Subj: Roger Cohen Material

Hi Tett,

I wanted to update you on the status of my workings with Roger's material.

1) I have finished making a first pass through all of the boxes, and I have started to organize the material into boxes where the material in each is somewhat related. I will review it again as I go through and organize it. Tentatively, Box 1 will be material related to the first edition of his book; Box 2 will be material related to the second edition of his book; Box 3 will have material related to his personal collection, his business dealings, coin envelopes, and pictures; Box 4 will have material related to various numismatic topics during his career as well as the start of folders of personal correspondence; Box 5 will consist entirely of folders of personal correspondence (which I have separated into folders for many people by name who have lots of correspondence, and a folder of miscellaneous collectors as well); Box 6 will be material related to his publishing's in Penny-Wise as well as material related to Walter Breen; and Box 7 will be auction catalogs, price lists, etc. Each box will be supplied with a basic breakdown as well so hopefully in the future others can easily access the information

2) are there any other half cents that Roger owned that you now own that you do not have the envelopes for? If so, I will be happy to try and find them. Just let me know if there are any you are interested in.

3) my exhibit on Roger for EAC is coming along very nicely. If it is acceptable to you, I would like to use five pieces from the collection in the exhibit. I would

acknowledge them as follows:

Acknowledgements

All of the material in the exhibit is from my personal collection of Roger S. Cohen, Jr. material with the following exceptions:

Cohen's EAC Certificate

Walter Breen Letter (from 1953, non-controversial)

Most of the Photographs

Cohen's "Red Book"

"Coinage of the Americas" Program

All of the above are from the Roger S. Cohen, Jr. archival records, courtesy of The Eric P. Newman Numismatic Education Society, St. Louis, Missouri.

Let me know your thoughts on above. Thank you for allowing me the opportunity to catalog the material. I feel privileged and have learned so much!!

Bob

Hi, Tett-

Thanks for the surprise envelope package! I will bring my spreadsheets summarizing the Green and Brand inventories to EAC. Hopefully, we can spend some time to review it together. I will print out a set for you.

Speaking of envelopes, I am trying to imagine tens of thousands of coins in Johnson's coin inventory. His secretary must have been VERY busy just typing out all of those envelopes. I would believe it if I was told he carried the largest inventory in the U.S. Also, I really can't imagine how Eric felt when Mr. Johnson passed away so suddenly. First, losing a friend and mentor; but, then having the burden as Executor of the Estate of disposing orderly this huge inventory.

One thing I noticed from Johnson's FPLs was his huge emphasis on and inventory of foreign coins. What many people do not know is that foreign portion of Col. Green's collection was valued very much more than was the U. S. and Colonial portion of his collection. His bank note collection was valued higher than either of the coin sections of the collection.

Mr. Johnson must have had a FANTASTIC memory to be such an expert in so many different areas of numismatics. This was even more amazing given how hard it was to gather information on foreign material from the 1890's through the 1930's.

I will be back in touch with you soon.

Thanks again,

Mike

Hi, Mike. It's Gerry writing a note for Eric. I sent you one a few weeks ago and did not hear back from you so thought maybe you were on vacation, working on another project, or just plain didn't get it for some reason.

Here's what we're looking for. Eric says he know he saw or has an invoice from Johnson to Dr. Judd. Probably in the 1940's and maybe with some of the invoices we went through while you were here in St. Louis. He wondered if by chance you had taken a picture of that invoice and if you did whether or not we can get a copy from you.

Looking forward to hearing from you. You can either sent your answer to Eric or me at [REDACTED]

Thanks for any help you can provide.

Gerry

Interesting research from Mike Spurlock ! Do you have any information about where Mickley purchased his coins ? Tett

From: [REDACTED]
To: [REDACTED]
Sent: 6/9/2012 11:45:33 P.M. Central Daylight Time
Subj: Research on Your 1802 C-2

Tett,

I obtained a copy of the Woodward bid book for the 1867 Joseph J. Mickley sale. The bid book said that a Mr. Farmer purchased the coin for \$4.75. His collection was sold only two years later by Mason and Co. I am trying to acquire this catalog. These definitely appear to be the "missing links" for your 1802 C-2 collection piece. Come to find out, Mr. Farmer had a pretty decent half cent collection.

I am not sure if this coin can be traced back further. I am not sure if records of Mickley's coins purchases and sales exist.

I am also going to follow up on the gap between Farmer and Parmelee. Mr. Parmelee definitely owned the coin, but he may very well have purchased it from another collector. He very often bought entire collections, sometimes to obtain just a few coins that he wanted. He then sold the remainder of the collections as a "Parmelee Sale".

Here is the detail of the pedigree as I now have it:

Joseph J. Mickley via Private Treaty 04/30/1867; W. Elliot Woodward; Woodward (Mickley) 10/28/1867:2087 \$4.75; XXXXXX Farmer; Mason and Co. (Farmer) 1869:677 \$11.00; Lorin G. Parmelee; New York Coin (Parmelee) 06/25/1890:803 \$20.00; E. W. Ropes; New York Coin (Ropes) 12/15/1893:428 \$11.75; Peter Mougey; Elder (Mougey) 09/01/1910: 294 \$44.00; Allison W. Jackman; H. Chapman (Jackman) 06/28/1918:866

**\$51.00; Wayte Raymond; Frederick C. C. Boyd (Privately Sold in 1943); Unknown;
James Stack; Stack's (Stack) 11/29/1989:33 \$12,100.00; R.Tettenhorst**

The auction catalog description is as follows:

2087. 1802 Scarcely touched by circulation; Very fine for this date, rare.

One other interesting note. Joseph Mickley was very proud of his coin collection and showed it often to friends AND strangers. He should have taken advice from you and adopted a pseudo-name, stay private and have third parties buy his coins for him.

Unfortunately on April 13, 1867, Mickley's home was burglarized of his foreign coins. This represented about half of Mickley's coin collection. This was just one of several times that some of Mickley's coins had been taken. Mr. Mickley viewed this as a "warning to desist from collecting any more." He sold his entire collection for \$10,000 to dealer and auctioneer, William Elliot Woodward on April 30, 1867. Immediately thereafter, he bought \$10,000 worth of U. S. Treasury 5-20 bonds that paid 6% interest (payable in gold).

Mickley primarily collected books about coins until his death in 1878.

Take care and heal quickly!

Mike

Subj: Your Request for Col. Green Information

Hi, Eric-

I hope you find this information useful. I derived it from the "Appraisal Numismatic Collection The Estate of Edward H. R. Green Estate. First National Bank, Boston, Massachusetts." Appraisal performed by Frederick C. C. Boyd, notarized on June 8, 1936, and presented to the State Court of New York.

1852 Humbert Pioneer 884/1000 \$10 Gold

Col. Green a total of 6 of these pieces: 2 Fine, 1 Very Fine, 1 Extremely Fine and 2 Uncirculated. They are listed in the Green inventory as follows:

Inventory Page No.	Trunk No.	Book No.	Page No.	Very Fine	Fine	Ext. Fine	Unc.	Total Value	Total Value
9 285	5 33	4a X	1 13	2	1	1	1	\$129.00	\$33.00

Unfortunately, Fred Boyd did not provide any additional detail.

1915 Panama Pacific Half Dollar in Copper and Silver without a mint mark

Col. Green owned many different Pan Pac pieces. Most were S-Mint pieces. These particular appraisal references showed no mint mark:

Page 139, Trunk 19, Book 12, Page 3: 3 Uncirculated Pieces valued at \$10.50 each (These coins were listed with silver half dollars)

Page 194, Trunk 22, Book 37, Page 1: 1 Piece (Polished) \$1.50 (This coin was listed with silver half dollars)

Page 203, Trunk 28, Book 54, Page 1: 1 Uncirculated Piece \$7.00 (This coin was listed with silver half dollars)

Page 372, Trunk 48, Book Unlisted, Page H: Panama Pacific set listed as "Proof" with the following notation, "54.00 Face Value P.P. 1S. 2G. 4S 3 C S 1 S 1 SET \$250.00" This set was listed on a "Miscellaneous Coins" page.

The Proof set above could very well be the set that contained the coins you are looking for. The "C" notation could stand for "Copper", the "S" for "Silver", and the "G" for "Gold".

I hope you can use some of this. If Heritage uses any of the above information in their catalog, please ask them to include my name in the footnotes.

Please feel free to call me if you have any questions or requests for information.

Best wishes for successful auction sales!

Mike

Mocab Introduction

1 message

To: [REDACTED] <[REDACTED]>
Cc: [REDACTED]

Tue, Mar 19, 2013 at 9:48 PM

Bob: Here is a draft of a proposed portion of catalog describing the nature and history of the Missouri Cabinet. I have reviewed this with Eric and he is comfortable with it. I welcome comments and suggestions.

The Missouri Cabinet is the result of a collaboration between R. Tettenhorst and the Eric P. Newman Numismatic Education Society (EPNNES). It has been assembled by R. Tettenhorst over a period of more than forty years.

EPNNES is a Missouri not-for-profit corporation which received its half cents from two sources. Eric Newman donated all of his half cents to EPNNES. Of special interest were those that came from the collection of Col. Edward H. R. Green. R. Tettenhorst donated a substantial number of his half cents to EPNNES, while retaining others. His collection included much of the Showers collection, as well as specimens from many of the other fine collections of recent decades. The details of how each half cent offered here came to the Missouri Cabinet are contained in its provenance.

EPNNES will use the proceeds of the sale of its half cents exclusively for the benefit of other not-for-profit institutions for public purposes and also for supplementing the Society's own museum operations and scholarly research efforts.

The Missouri Cabinet is the only collection of half cents ever formed which contained every variety of half cent struck for circulation. In addition, it is the only collection to contain every variety of half cent struck only in proof.

Eric Newman <[REDACTED]>

Col. Green half cents provenance

1 message

To: [REDACTED] <[REDACTED]>
Cc: [REDACTED]

Tue, Mar 19, 2013 at 6:18 PM

Bob: I have confirmed with Eric that he would like the provenance of the half cents acquired from the Col. Green estate to read: Newman-Johnson arrangement, Eric Newman, EPNNES, Missouri Cabinet.

Their will need to be a description of the Newman-Johnson arrangement in the introductory material. If there is some reference to it in the Heritage auction of his patterns, we should probably follow that description. No need to have two different versions of the same events.

Also, I just received the CD. We are leaving town tomorrow for a few days, so I am saving it for our return. Hope you had a great time on the river. Tett

Hi Larry,

As of yesterday, Gordy had not seen the coins. Hopefully, they will cross his desk today.

Hi BJ; delivered about 10 half cents to PCGS yesterday to Gordon for his review . The items should change the reg sets for this collection. We are now doing our ads and they feature the Reg set info. If you could send me the latest reports such as finest reg set etc I would like to place that info in the ads. Please review after the half cents are reviewed by Gordon. Thanks Larry

Best Regards,

Larry Goldberg

Subj: Re: returned half cents

Attached is the list of items going back to Eric on Monday. There are some really nice pieces in here, but they duplicated things in better condition in the Missouri Cabinet sale. I think it is best to avoid competing with your own coins when possible.

Five of your pieces are not in as well. They are as follows:

29.1.8 Burnished
40.1.3 Electro
44.1.4 Electro
45.1.2 Electro
47.1.2 PCGS would not authenticate

I am holding on to those 5 and we can place them in another sale.

On another issue, Gordy Wrubel wants to know if Rick Coleman thinks the 1829 and 1857 half cents in question are proofs. He trusts Rick's knowledge on these. I assume Rick has examined them, but I don't have Rick's email address to contact him directly. Can you help?

Thanks.

Bob Grellman

Got it. Thanks.

We have made arrangements to have the entire collection on display at the June 2013 Long Beach convention. PCGS is hosting the display and it will be announced in the official convention program. The collection will be fully insured for the event, of course. Individual lot viewing will not be permitted during this event. The coins will be transferred to and from the convention by Brinks.

I have requested that they clear any advertising and promotional materials through us first, and I will forward those when they become available.

The Missouri Cabinet

The Missouri Cabinet is the result of collaboration between R. Tettenhorst (Tett) and the Eric P. Newman Numismatic Education Society (EPNNES). It has been assembled by Tett over a period of more than 40 years. The name was suggested for what was then Tett's half cent collection by Walter Breen when he visited St. Louis to take photographs of the coins for his book, Encyclopedia of United States Half Cents. This collection included much of the Showers collection, as well as specimens from many other fine collections.

EPNNES is a Missouri not-for-profit corporation which received its half cents from two sources. Eric Newman donated all of his half cents to EPNNES. Of special interest were those that came from the collection of Colonel Edward H. R. Green. Tett donated a substantial number of his half cents to EPNNES while retaining others. The details of how each half cent offered here came to the Missouri Cabinet are contained in its provenance. Tett has had custody of all the Missouri Cabinet half cents and managed the continued improvements to its collection.

This arrangement had a number of favorable results. It brought the Colonel Green half cents and the Brand proof-like 1811 into the Missouri Cabinet, which substantially improved the collection. It also allowed for all of the half cents to be shown at the Half Cent Happenings at the annual meeting of Early American Coppers, Inc. and to interested half cent collectors who visited St. Louis from time to time. Further, now that the Missouri Cabinet is being auctioned, it will provide substantial funds for philanthropic purposes while preserving all of its historic half cents for acquisition by other individual collectors.

EPNNES will use all the proceeds from the sale of its half cents for the benefit of not-for-profit institutions for public purposes and also for supplementing the Society's own museum operations and scholarly research efforts.

The Missouri Cabinet is the only collection of half cents ever formed which contains every variety of half cent struck for circulation. In addition, it is the only collection to contain every variety of half cent struck only in proof. The Professional Coin Grading Service (PCGS) has certified each coin in the collection, and they rank the Missouri Cabinet #1 in all eight registry categories applicable to half cents.

Welcome to an historic event.

Eric: Breen refers to these as Tokens. They bear the words "One Cent". In your opinion is either terminology acceptable
? Tett

I am not sure what aspects of this article are new knowledge re the Green provenance, but I will certainly pass it along for all to enjoy.

Andy: This is a splendid bit of numismatic research about the source of Eric's Col. Green half cents. Make sure that Eric has read it, and you may enjoy it too.

Moreover, it may also lead to some valuable provenance information about other Col. Green coins in EPNNES. If Stu Levine isn't aware of it he would probably be interested. Tett

Gentlemen-

Please find attached a courtesy copy of an article I plan to include in the next edition of *Penny-Wise*. I wanted you to read it first since you are both mentioned in the article.

Thanks,

Mike

Subj: Upcoming Kolbe-Fanning Sale

To all:

Please take a look the on-line catalog for the upcoming Kolbe-Fanning New York Book Auction. The nicest pieces from my numismatic library are featured in the auction. There are some fantastic offerings with (obvious) strengths in Half Cents. There are some lots that I hope end up in the collections of deserving fellow half cent collectors.
